1 INTRODUCTION

1.1 Puerto Rico Fiscal Agency and Financial Advisory Authority

AAFAF is an independent public corporation and governmental instrumentality with separate legal existence, fiscal and administrative autonomy, and independence from the Government. Pursuant to Act No. 2 of 2017 (the “Organic Act”), AAFAF was created, among other things, to act as fiscal agent, financial advisor and reporting agent of the Government, its agencies, instrumentalities, subdivisions, public corporations and/or municipalities, including Covered Entities as defined under the Puerto Rico Oversight, Management and Economic Stability Act of 2016, Public Law No. 114-187, 130 Stat. 549 (“PROMESA”), and to assist said entities in confronting the grave fiscal and economic emergency that Puerto Rico is currently experiencing. AAFAF has assumed the majority of the fiscal agency and financial advisory responsibilities previously performed by the Government Development Bank for Puerto Rico.

In light of the Organic Act, AAFAF is the agency responsible for coordinating the Government’s sustainable use of resources, while presenting a global and coordinated view of the Government’s capital needs. As such, AAFAF has authority to monitor compliance with the budget certifications approved under PROMESA and to review matters such as, but not limited to, contracts, transactions and regulations of agencies and instrumentalities of the Government. The Organic Act authorizes AAFAF to enter into professional service agreements that are necessary or convenient to assist in the proper execution of its ministerial duties.

1.2 Certified Fiscal Plan and Budget

PROMESA was enacted, among other things, to provide a mechanism to manage the Government’s - and certain other public corporations and instrumentalities considered as Covered Entities thereunder - revenues and expenditures, and to restructure their respective obligations. For these purposes, PROMESA established the Financial Oversight and Management Board for Puerto Rico (“FOMB”), as further defined herein.

PROMESA established a procedure for the Government and/or Covered Entities to develop and submit to the FOMB a fiscal plan and budget for certain fiscal year(s), for the FOMB’s review, comments, approval and certification; for certification purposes, subsequently the FOMB may proceed within the purviews of PROMESA. Once a fiscal plan and budget are certified, PROMESA also provides procedures to monitor compliance accordingly. On May 27, 2020, the FOMB certified the Government’s fiscal plan for Fiscal Year 2020-2021; subsequently, on June 30, 2020, the corresponding budget for Fiscal Year 2020-2021 was certified (collectively referred to as the “Certified Fiscal Plan & Budget” or the “Fiscal Plan”).

As custodian of the Fiscal Plan, FOMB is tasked with providing oversight and support for key measures under the Fiscal Plan, including the 21st Century Technical and Business Education Fund defined in Section 1.3.

1.3 21st Century Technical and Business Education Fund

The Fiscal Plan included several multi-year strategic investment programs “to improve government services, increase competitiveness, and create the conditions for growth that can benefit all residents”. In total, the Fiscal Plan proposed investing $5.5bn over five years in healthcare, public safety, education, manufacturing and technology programs.
Amongst these programs, the Fiscal Plan allocated $50m (the "21st century Technical and Business Education Fund" or the "Fund"), to provide education in technical and business skills through a grant program ("Education Grant Program" or the "Grant Program") and ensure that residents benefit from better and more equal access to education. With this Fund and the Grant Program, the Government recognizes the importance of investing in people’s technical capabilities, such as digital skills to close technological core skill gaps and ensure that the people of Puerto Rico are able to compete and thrive in the global economy.

This Fund has become more significant with the onset of the COVID-19 pandemic and the resulting economic damage. Education in technical and business skills provides numerous socio-economic benefits to communities and individuals, including improving labor market outcomes and increasing business productivity.

The 2020 Fiscal Plan requires AAFAF to conduct a transparent, competitive procurement process as reviewed and approved by the FOMB to select an organization to serve as the administrator of the Grant Program ("Grant Administrator"). The Grant Administrator will be tasked with developing a plan for 21st century skills for the entire workforce pipeline in Puerto Rico, the plan will identify the priority technical and business areas/skills to focus on ("Skills Development Plan"). Scholarships would be made available for educational programs certified by the Grant Administrator, which would do so in alignment with the Skills Development Plan.

To support these efforts, the Grant Administrator must first establish a skills assessment that will create the supporting infrastructure for the scholarship program and put in place a regular monitoring and evaluation process. Furthermore, the Skills Development Plan will allow universities and private education providers to develop and open programs in anticipation of fees from scholars’ enrollment. Given the importance of online learning, the plan should also encourage programs to be offered in multiple formats, be it online, on campus, or a hybrid of the two.

The Government Parties will establish a committee (the “Grant Committee”), including the development of its rules, bylaws and procedures, which will oversee and provide guidance to the Grant Administrator as it relates to the Services and Grant Program, and will approve of any monies to be used to fund education programs ("Grants") by selected grantees ("Grantee"). The Grant Committee members shall be designated following the same parameters as those for the Evaluation Committee, as further defined in Section 7.1.

It is critical to note there are other Government Entities and existing programs that address technical and business education program funding in Puerto Rico, such as the Puerto Rico Department of Education ("PRDE"), the Office of Career, Technical & Adult Education, and the Workforce Innovation and Opportunity Act ("WIOA"). PRDE, in line with the Carl D. Perkins Career and Technical Education Act of 2006 and The Strengthening Career and Technical Education for the 21st Century Act of 2018, will receive approximately $19 million annually to ensure all students, who attend a high school or a technical institute, have access to high-quality career and technical education ("CTE") programs of study, which are fully aligned with its economic and workforce priorities. Puerto Rico also receives approximately $2.4 million from WIOA, which is a demand driven workforce development system designed to make United States workers more competitive in the 21st century. The WIOA Act is much broader in its workforce development scope, addressing all in demand skills with technical and business education skills just one component of the plan.
2 DESCRIPTION OF THE ENGAGEMENT

2.1 Description of Proposed Contracting Opportunity

AAFAF intends, through this procurement, to enter into a Grant Administration Agreement ("GAA"), which will result in best-value completion of all the elements of the project.

The GAA will set forth the terms of the Grant Administrator compensation, which shall not exceed $500,000, unless additional consideration is proposed by the Selected Proponent and approved by the Government Parties and FOMB. It is expected that the payment mechanism will be based on time and material fees, themselves based on actual cost of resources and expenses, which should be described in the Financial Proposal. Accordingly, cost will not be a factor in the evaluation criteria, but (i) the Proponent’s budget breakdown will be evaluated for its reasonableness as it relates to the Proponent’s Technical Approach; and (ii) the Proponent’s rates and budget will be approved upon execution of the GAA. Upon detailed evaluation of technical proposals by the Evaluation Committee, the Government Parties shall select one firm, the Selected Proponent, for contract negotiations, including final approval of the Proponent’s rates and budget (as described in Proponent’s Section B of the Financial Proposal). The funding provided under the GAA shall be used to fund the costs of the contract between AAFAF and the Selected Proponent to perform the Scope of Work, including procurement and retention of any additional professional services required to perform the Scope of Work.

The Proponent understands and acknowledges that the GAA, or any amendment to the GAA shall be approved by FOMB.

2.2 Further Contract Conditions

The contents of the proposal prepared by the Selected Proponent, with any amendment approved by AAFAF, will become part of the GAA, which will be executed with such Proponent as a result of this RFP process and is subject to FOMB’s review and approval.

The final GAA will include clauses required when contracting for similar services to those procured under this RFP and those included in contracts with the Government, such as contractual provisions requiring:

- Original certifications evidencing that the Proponent has complied with its responsibility in the filing of tax returns and payment of its taxes, including sale and use tax as applicable, to the Commonwealth of Puerto Rico, to the Federal Government, and to the state or jurisdiction where its base of operations resides.
- Commercial Registration Certification issued by the Department of Treasury.
- Certification of Compliance issued by the Child Support Administration ("ASUME"). Corporations must file their request for said certification with the Employer Unit of ASUME. The same indicates that the employer complies with the orders issued in its name as employer to retain the salary of employees as a result of amounts owed for child support.
- Sworn statement, signed by the Proponent’s president or chief executive authorized to represent the Proponent, indicating that the Proponent, its subsidiaries, affiliates and/or parent companies, and their respective shareholders, directors, partners, officers, executives, or principals have not been convicted, probable cause for arrest has not been found against any of them, nor are they being investigated under any administrative, judicial or legislative procedure, whether within or outside of Puerto Rico, as a result of any crime constituting fraud, embezzlement or
misappropriation of public funds, as provided in Act No. 2 of January 4, 2018, as amended, or any other legal provision penalizing crimes against the treasury and the public trust, and that the person signing the statement has not been investigated, arrested, convicted, or found guilty or sentenced as a result of said criminal conduct.

- Certification of Employer Registration and of Debt with Respect of Unemployment Insurance and Disability Insurance issued by the Workplace Safety Bureau, Tax Division, Collection Unit of the Department of Labor and Human Resources. The same shall indicate that the Proponent does not have a debt with the Disability Insurance and Unemployment Insurance Programs. If the Proponent is not an employer, it shall indicate that the person is not registered as an employer and therefore does not have any debt.

- Certification of Employer Registration and of Debt in Respect of Driver’s Insurance issued by the Persons with Non-Occupational Disabilities and Driver’s Insurance Bureau of the Department of Labor and Human Resources. The same shall indicate that the Proponent does not have a debt with the Non-Occupational Disability Insurance and Driver’s Insurance Programs. If the Proponent is not an employer, it shall indicate that the Proponent is not registered as an employer and therefore does not have any debt.

- No debt Certification and copy of current policy issued by the State Insurance Fund.

- Certification of Existence or Certification of Authorization to do business in Puerto Rico. The Certification of Existence indicates that the applicant is incorporated under the laws of Puerto Rico and is issued by Puerto Rico’s State Department. The Certification of authorization to do business in Puerto Rico applies to foreign companies. It indicates that the applicant is authorized to do business in Puerto Rico and is issued by the Puerto Rico State Department. The certification indicates the date of issuance and authorization to do business in Puerto Rico.

- The Proponent agrees to maintain books, records and other documents relating to the GAA and any grantee contracts adequate to demonstrate implementation of its responsibilities under the GAA, including the selection of grantees, receipt and approval of grantee reporting requirements and approval or disapproval of grantee disbursements. Such books, records and other documents shall be separately maintained for a period of three (3) years after the date of the close of the GAA term. The Proponent shall afford AAFAF and FOMB or its authorized representatives the opportunity at reasonable times to review such books, records and other documents relating to the GAA, grantee contracts, and grantee monitoring.

All certifications, including those of all Team Members, must be current, that is, issued within thirty (30) days from the date the Selected Proponent executes the contract with the Government Entities. The Proponent can be composed of a Lead Team Member (as defined in Section 5.1.1) and one or more Team Members (as defined herein). In areas where the Lead Team Member does not currently have the in-house capacity to carry out the Scope of Work as detailed in the following sub-section, it is understood that the Lead Team Member, will either team with other firms, subcontract other firms or persons, and/or retain professional services (e.g. legal, technical, or financial advisors; collectively the “Team Members”) as required to fulfill the Scope of Work.

The Selected Proponent will be contractually required to abide the laws of Puerto Rico as governing laws under the agreement. The courts of Puerto Rico shall have exclusive jurisdiction over any controversy arising under this agreement.

The Government Entities shall reserve the right to terminate any contract entered into as a result of this RFP at any time, provided that written notice has been given at least thirty (30) days prior to such proposed termination date.
Furthermore, the Selected Proponent shall:

- Work with the Government Entities and any other personnel on all matters that may arise in connection with the engagement as per the terms of this RFP and the contract to be executed between the parties;
- Assume sole responsibility for the complete effort required to provide the services;
- Refrain from assigning, transferring, conveying, or otherwise disposing of the contract, or its rights, titles or interest therein, or its power to execute such agreement, to any other person, firm, partnership, company or corporation without the prior consent and approval in writing of the Government Entities; and
- Comply with applicable federal, state, Commonwealth and foreign laws and regulations governing projects initiated or supported by the Government of Puerto Rico.

The term of the GAA will be for three years since the execution date, with the possibility of two 1-year extensions. The Grant Administrator, or any successor entity, shall advise FOMB as to the status of the project at least one (1) time per year over the course of the contract (including any extensions) and for a period of three (3) years after completion of the Grant Administrator Services.

2.3 Scope of Work

The Government Entities seek proposals from organizations to provide Grant Administrator Services and the Technical Assessment and Educational Services (the “Services”). The Services shall include, but are not limited to, the following two key areas:

- Skills Assessment and Development Planning
- Grant Administration

2.3.1 Skills Assessment and Development Planning

- Conduct an assessment of the workforce of Puerto Rico and analyze real time labor-market information to identify and prioritize industry-recognized, high-demand, high-wage, high-growth technical and business skills to help the Puerto Rico workforce compete in the global economy and align with future workforce needs (the “Skills Assessment”).

- Guided by the findings and goals from the Skills Assessment, identify the priority technical and business areas/skills to focus on and develop a plan that will strengthen these skills for the entire workforce pipeline in Puerto Rico (“Skills Development Plan”).

- Include recommendations for goals of the Skills Development Plan and Grant Administrative Services, based on the Skills Assessment, no later than 90 days from commencement of said assessment to AAFAF for their review and alignment on the conclusions of the assessment and goals of future deliverables. Other parties that will be involved in reviewing and aligning of these
findings may include FOMB, Workforce Development stakeholders, PRDE, the University system of Puerto Rico and other interested parties.

- Milestone feedback and recommendations will be collected by AAFAF and submitted back to the Grant Administrator within 30 days of receipt of the Skills Assessment and Skills Development Plan. The organization will provide corrective actions based on the feedback received and recommendations made and will continue to work under the required timeline of this RFP.

- Publish the results of the Skills Assessment and the Skills Development Plan.

2.3.2 Grant Administration

- In collaboration with the Grant Committee, put in place a competitive process for the Grant Program; public and private organizations shall be able propose programs in the competitive process, which must be aligned with the Skills Development Plan.

- Develop marketing and outreach programs to (i) encourage public and private institutions to develop and open technical and business education programs in anticipation of fees from student enrollment, and (ii) attract students to pursue these programs in anticipation of free enrollment, through social media outlets, newspapers, websites, and other media outlets.

- Develop communication strategy for the Grant Program and implement communication plans for all stakeholders including but not limited to (i) implementing a help desk to support email and phone inquiries from relevant stakeholders, and (ii) developing a program to disseminate information to public and private institutions.

- Formulate and establish clear, standardized grant management procedures to ensure ongoing regulatory compliance, monitoring and performance management in accordance with the government parties’ specific regulations. Procedures should include a robust monitoring and evaluation plan based on key performance indicators as well as a plan for non-compliance and should be appropriately structured to allow for milestone and/or service level-based disbursement.

- Develop a template contract for selected Grantees, specifying (as applicable) key terms including contract length, performance standards, construction and service rollout schedules, permitted ownership structure(s), competitive access requirements, regulatory compliance requirements, environmental controls, grant reporting and data sharing requirements, monitoring and oversight procedures, and hand-back provisions. Given that the finalized template contract will require FOMB approval, review, and approval from the FOMB should also be incorporated at this stage.

- Establish a process for receipt and evaluation of Grant applications, including both financial evaluation of proposed projects as well as non-financial evaluation based on alignment with established goals and evaluation criteria.

- Administer the Grant application process, including but not limited to: (i) registration procedures, (ii) establishment and administration of a centralized electronic data room of all applications, (iii) assistance in eligibility determinations and approval process, (iv) evaluation of Grant applications based on determined qualitative and quantitative metrics; (v) ensuring that Grant applicants are fully capable and qualified to perform the described work and have obtained all requisite licenses and permits to perform such obligations.

- Develop a performance-based disbursement plan and support the Government Parties in disbursing Grants to selected grantees pursuant to the Grant Committee’s established guidelines and regulations applicable to the grant program, as well as any disbursement guidelines
established by the Grant Administrator. Disbursement of funds will be made only after FOMB approval of the GAA. Any work performed by the Grantees or any subcontractor in connection with the Grant Program prior to FOMB’s approval of the contract will be at the Grantee’s risk.

- Lead the contracting process for selected grantees based on the established template contract, including (i) finalizing technically sound and enforceable performance standards, (ii) finalizing realistic schedules for required rollout of grantee projects, including, as applicable, timing of milestone payments and binding performance targets for each phase, (iii) finalizing an integrated monitoring and disbursement regime to incentivize grantees to meet performance standards in accordance with the established schedule, (iv) acting as counterpart to grantee contracts, (v) leading contract negotiations, and (vi) establishing training and hand-off procedures for oversight, monitoring, and disbursement roles at the close of the Grant Administrator contract term.

- Conduct and coordinate ongoing monitoring of grantee projects to ensure contract and regulatory compliance, including levying of established penalties for non-compliance with construction and service milestones. Conduct handoff procedures for performance-based disbursement agreements as established in grant contracts, including, as necessary, technical training and legal transfer of oversight responsibility to the successor entity.

- Monitor ongoing grant reporting, data collection and other accountability measures to ensure that funded projects deliver the promised services (key performance indicators) as well as evaluate overall progress towards identified goals. The Grant Administrator, and any successor entities, shall advise FOMB as to the status of funded projects at least one (1) time per year after grantee selection is completed and for a period of at least three (3) years after completion of the grantee selection.

- Develop dashboards and/or reports illustrating key results and progress towards identified goals.

- Retain all records, documents, and communications of any kind (including electronic disk or print form) that relates in any manner to grant awards and project procurement and performance.

- Support the Government Parties in the establishment of Grant Administration closeout procedures and execute Grant Administration closeout.

- Any other incidental or related service(s) needed regarding the Grant Program, within the boundaries of the Scope of Work described herein.
