This balance was further segmented into \$374M in pension-related funds (Employee Withholdings and Pay-Go Charges), \$142M in Central Government non-TSA funds (lottery-related funds and other funds held and administered by central government agencies), and \$64M held TSA Sweep Accounts that collect income and completely pass through to TSA on a daily basis (includes General Collections Posts, Agency Collections Posts, and SUT). As further set forth in the Bank Account Balance Report, processes are currently in place to continue evaluating the accounts, including analyzing the cash inflows and outflows and reviewing legal restrictions relative to funds deposited into the bank accounts.*

## **Introduction**

- *Enclosed is the weekly Treasury Single Account ("TSA") cash flow report, supporting schedules and Liquidity Plan to actual variance analysis.*
- *TSA is the Commonwealth's main operational bank account (concentration account) in which a majority of receipts from Governmental funds are deposited and from which most expenses are disbursed.*
- *Beginning April 2016, TSA receipts are deposited in a commercial bank account rather than the Government Development Bank for Puerto Rico ("GDB").*
- *Receipts in the TSA include tax collections (including revenues assigned to certain public corporations and pledged for the payment of their debt service), charges for services, intergovernmental collections (such as reimbursements from Federal assistance grants), the proceeds of short and long-term debt issuances held in custody by the Secretary of Treasury for the benefit of the Government fiduciary funds, and other receipts. Only a portion of the revenues received by the TSA is included in the annual General Fund budget presented to the Puerto Rico Legislative Assembly for approval. Other revenues are separately assigned by law to certain agencies or public corporations but still flow through the TSA.*
- *Disbursements from the TSA include payroll and related costs, vendor and operational disbursements (including those reimbursed by Federal assistance grants and funded from Special Revenue Funds), welfare expenditures, capital outlays, debt service payments, required budgetary formulas and appropriation payments, pass-through payments of pledged revenues to certain public corporations, tax refunds, payments of current pension benefits and other disbursements.*
- *Federal funds related to disaster relief for hurricanes Irma and Maria are deposited in a separate bank account overseen by the Government Authorized Representative ("GAR"), and transferred to the TSA only after admissible disbursements (per approved Project Worksheets) have been made. These inflows to the TSA will be captured on the Federal Funds Receipts (Schedule C); outflows will be captured on the Vendor Payments (Schedule E).*
- *Data for TSA inflows/outflows is reported from various systems within the Department of Treasury of Puerto Rico ("DTPR"):  
Cash Flow Actual Results - Source for the actual results is the TSA Cash Flow.  
Schedule A - Collections - Source for collections information is the DTPR collections system.  
Schedule B - Agency Collections - Source for the agency collections is DTPR.  
Schedule C - Federal Fund Receipts - Source for the federal funds receipts is DTPR.  
Schedule D - Net Payroll - Source for net payroll information is the DTPR Rhum Payroll system.  
Schedule E - Vendor Payments - The source for vendor payments is the Bank checks paid report and a report from the DTPR PRIFAS system.  
Schedule F - Other Legislative Appropriations - Source for the other legislative appropriations is DTPR.  
Schedule G - Central Government - Partial Inventory of Known Short Term Obligations - Sources are DTPR.*
- *Data limitations and commentary:  
The government has focused on the seven schedules above for which access to reliable, timely, and detailed data is available to support these items. The government continues to work with DTPR and other parties to access additional reliable data that would help us provide detail in the future for other line items in the Cash Flow.*

## **FY 2018 TSA Forecast Key Assumptions**

- *The FY 2018 Treasury Single Account cash flow forecast Liquidity Plan was prepared at the beginning of the fiscal year based on the approved FY 2018 Budget, was projected monthly through June 2018, and is used as the benchmark against which weekly results and variances are measured. As a result of material economic and operational changes stemming from Hurricanes Irma and Maria, DTPR is in the process of developing a reforecast of TSA cash flows to year-end. Until then, the original TSA forecast will continue to serve as the measure for weekly cash flow variances.*
- *Forecast collections and disbursements through the General Fund and Federal Fund are consistent with the approved FY 2018 Budget, with the exception of payroll outlays which were forecast based on run-rate cash disbursement trends, and budget reserves which are non-cash and do not impact the TSA direct cash flows.*
- *TSA General Fund inflows are "gross" (i.e. include accrued Tax Refunds in 2018) and therefore higher than presented in the approved FY 2018 Budget, which considers General Fund revenues net of current year tax refunds. Repayment of deferred tax refunds (from CY 2016 and prior) total \$292mm; reserve for current year tax refunds (excluding garnishments) total \$456mm.*
- *Payroll outlays are based on FY 2017 run-rate disbursements, less savings measures, representing a \$298mm favorable adjustment to the approved FY 2018 Budget for the full fiscal year. Payroll is presented inclusive of segregated employee contributions (\$349M for the year). Payroll is disbursed through the TSA on a bi-weekly basis, approximately on the 15th and 30th of each month.*
- *Pensions reflect the implementation of the pay-as-you-go model in FY 2018. Retirement system inflows represent deposits from municipalities and corporations net of administrative expenses. Figures also include ERS / TRS / JRS asset sales (\$390M), which occurred in July 2017.*
- *The Liquidity Plan assumes collections and outlays of Federal Funds are equal in FY 2018 (zero net cash impact), excluding potential timing impact.*
- *Clawback funds set aside prior to June 2016 (approx. \$146mm held at BPPR accounts and \$144mm held at GDB) are considered restricted cash and therefore excluded from the projected cash balance.*
- *The Liquidity Plan assumes \$592mm of Reconciliation Adjustment as per the approved FY 2018 Budget and March 13 certified Fiscal Plan, which is projected separately from supplier payments and distributed evenly over 12 months. No further provision has been made for potential contingent liabilities against the government.*
- *The Liquidity Plan assumes that beginning November 2017, COFINA SUT collections flow to the General Fund and are available to the TSA for operational purposes, totaling approx. \$316mm in incremental collections in the forecast. To date these funds have flowed, and may continue to flow, to the COFINA bank account (BNY Mellon), which will create a weekly variance from November through January.*

**Key Takeaways as of 1/26/2018:**

Collections

- The following revenue streams have largely been resistant to negative effects stemming from Hurricane María:

<i>Corporate Income Tax <sup>(1)</sup></i>	<i>Alcoholic Beverages Tax</i>	<i>Motor Vehicles Tax / Fees</i>	<i>Cigarette Tax</i>
<i>Non Resident Withholdings</i>	<i>Petroleum Import Tax</i>	<i>Rum Tax</i>	<i>Others</i>

*(1) The full impact of Hurricane María on Corporate Income Tax collections may not be completely realized yet, as negative effects on Corporate Income Tax collections may lag behind other revenue streams.*

- The following revenue streams have been negatively impacted by effects stemming from Hurricane María, and are currently under assessment to determine how much of the negative effects are temporary and will reverse in the short term vs. how much will result in permanent variance and FY2018 collection shortfall:

<i>Individual Income Tax</i>	<i>Act 154 Collections</i>	<i>Federal Fund Receipts</i>
<i>Sales &amp; Use tax</i>	<i>Agency Collections</i>	<i>Others</i>

**Notable variances <sup>(a)</sup> for the week ended January 26, 2018:**

<b>-\$145M</b>	<b>Inflow - Sales &amp; Use Tax</b>	(Partially Temporary) -\$54M of this variance is permanent, as it relates to funds that were forecast to flow into the COFINA BNY Mellon account. The remaining variance will be assessed to determine how much is permanent vs. temporary.
<b>-\$90M</b>	<b>Outflow - ASES Appropriation</b>	(Temporary) Offsets previous YTD timing variance. Mainly due to \$137M federally funded appropriation to ASES for the Medicaid Program that was executed on 1/24.
<b>-\$81M</b>	<b>Outflow - Pension Benefits</b>	(Temporary) January pension benefit payments were disbursed on 1/26; original forecast projected \$83M to be disbursed on 1/29.
<b>+\$105M</b>	<b>Inflow - Federal Fund Receipts</b>	(Temporary) Offsets previous week's timing variance. Mainly due to \$151M catch up in federal funds received for the Medicaid Program (compared to \$48M forecast). Additionally, Federal Fund Receipts included \$13M in funds transferred to the TSA on 1/26 for reimbursement of disaster-related spend.
<b>+\$127M</b>	<b>Inflow - Contributions From Pension Systems</b>	(Temporary) Offsets previous YTD timing variance. Due to \$143M transferred to the TSA from a separate sweep account under the custody of DTFR on 1/26 relating to 1Q and 2Q Paygo charges to municipalities and public corporations. This transfer to the TSA represented the first transfer of Paygo charges into the TSA. Going forward, regular transfers are expected to occur as Paygo charges are collected from municipalities and public corporations.

**Notable YTD variances <sup>(a)</sup> as of January 26, 2018:**

<b>-\$468M</b>	<b>Inflow - Federal Fund Receipts</b>	(Temporary) YTD variances in federal fund receipts are partially offset by variances in federally funded vendor disbursements, federal appropriations to ASES, and disbursements for Nutritional Assistance.
<b>-\$402M</b>	<b>Inflow - Sales &amp; Use Tax</b>	(Partially Temporary) YTD permanent negative variance is -\$316M due to COFINA SUT collections flowing to the COFINA bank account. Remaining YTD variance due to the current week's variance will be assessed to determine how much of the remaining variance is temporary vs. permanent.
<b>-\$211M</b>	<b>Inflow - General Collections</b>	(Permanent, with exception of a few timing variances) Principally due to the negative impacts caused by Hurricane María. The largest YTD collections variances are -\$150M in individual income tax collections, -\$139M in Act 154 collections, and +\$123M in Petroleum & Gas Tax collections.
<b>+\$80M</b>	<b>Outflow - Tax Refunds</b>	(Temporary) Mainly due to \$27M in Senior Citizen tax refunds, originally forecast to be refunded in November and December, now projected to be refunded in February and March 2018 (Temporary). Remaining +\$53M variance is also timing related.
<b>+\$296M</b>	<b>Outflow - Reconciliation Adj.</b>	(Potentially Permanent) Potential utilization of the Reconciliation Adjustment deferred to later this fiscal year.
<b>+\$519M</b>	<b>Outflow - Vendor Disbursements</b>	(Partially Temporary) Significant reversal of YTD variance is expected next week due to payments issued during the week ended 1/26 that did not clear the bank until the following week. The vendor to which the largest amount of payments were issued was PREPA, as throughout January there was a concerted effort amongst agencies to record and subsequently pay down open invoices from PREPA and PRASA in order to support their liquidity needs. This corresponds with increases in AP throughout January and subsequent decrease of total AP by \$194M from 1/19 to 1/26. Remaining YTD variance is being assessed to determine how much is expected to reverse throughout 3Q and 4Q.

**Key Cash Flow Risks to Liquidity Plan through June 30, 2018:**

<b>Sales &amp; Use Tax</b>	The Liquidity Plan includes -\$316M in collections that will not be received into the TSA. These funds have flowed, and will continue to flow, to the COFINA bank account (BNY Mellon). Though this amount of SUT will be collected, it will not be available to the TSA for operational purposes. Additionally, lower SUT collections due to the impact of the Hurricanes on collections may approximate -\$236M by fiscal year-end, for a total variance of -\$552M compared to the Liquidity Plan.
<b>Corporate Income Tax</b>	Though Corporate Income Tax collections have been fairly resistant to the negative effects of Hurricane María to date (\$732M YTD actual collections, -\$7M YTD Variance), the full impact of Hurricane María may not be completely realized yet, as negative effects may lag behind other revenue streams. By fiscal year-end, lower Corporate Income Tax collections due to the impact of the Hurricanes may approximate -\$169M when compared to the original Liquidity Plan.
<b>Act 154 Collections</b>	Act 154 collections have been negatively impacted due to the effects of Hurricane María and a majority of the variance is assumed to be permanent in nature. Further deterioration in Act 154 Collections is expected throughout 3Q and 4Q. Total variance against the original Liquidity Plan may approximate -\$291M by fiscal year-end.
<b>FEMA Spend</b>	FEMA cost share may impact working capital due to the timing of the spend / reimbursement cycle. Though FEMA cost share will be funded by General Fund reserves that were excluded from the Liquidity Plan Forecast (\$307M), the lag between spend and reimbursement may create temporary cash variances in the TSA.
<b>PREPA/PRASA</b>	A Court Decision regarding a loan in the amount of \$550M to PREPA from the TSA is expected on February 15, 2018. PRASA might also potentially require funds to be transferred from the TSA to fund their ongoing liquidity needs, which is an additional risk against the Liquidity Plan. The total potential TSA funding need is currently being assessed.

**Key Cash Flow Opportunities to Liquidity Plan through June 30, 2018:**

<b>Petroleum &amp; Gas Taxes</b>	Strong Petroleum & Gas tax collections could continue throughout Q3 and Q4, providing additional positive variance in collections. Since Hurricane María, +\$112M variance (+\$123M FY2018 YTD) in this revenue stream, largely driven by unplanned increases in demand for oil to run power generators, has partially offset other revenues that were negatively affected due to the Hurricanes.
<b>Reconciliation Adjustment</b>	Currently the Reconciliation Adjustment is being deferred until later this fiscal year. However, the Reconciliation Adjustment might not be fully utilized, which would allow for a cash opportunity against the Liquidity Plan of +\$592M. This opportunity might be partially offset by non-budgeted Title III spend (which may approximate -\$200M) and the set of up The Municipal Recover Fund (potentially -\$100M). Total adjusted cash opportunity against the Liquidity Plan could be +\$292M.

Additionally, federal fund receipts includes \$13M in funds transferred to the TSA on 1/26 for reimbursement of disaster-related spend. The majority of these funds (\$11M) were reimbursements for National Guard spend relating to hurricanes Irma and Maria. Remaining weekly and YTD variances in federal fund receipts are partially offset by variances in federally funded vendor disbursements (portion of line 32), federal appropriations to ASES (line 25), and disbursements for Nutritional Assistance (line 35). Remaining variance is due to timing.

YTD Pension PayGo outlays variance is expected to reverse in subsequent weeks, as \$143M was received by the TSA on 1/26 relating to 1Q and 2Q Paygo charges to municipalities and public corporations.
20	Gross Payroll - PR Police Department (g)	(24,263)	(16,650)	(21,043)	4,392	(405,298)	(385,427)	(19,871)	
21	Subtotal - Payroll and Related Costs	(\$37,553)	(\$101,602)	(\$127,926)	\$26,324	(\$2,179,078)	(\$2,167,848)	(\$11,230)	25 Weekly variance offsets previous YTD variance, mainly due to \$137M federally funded appropriation to ASES for the Medicaid Program that was executed on 1/24. YTD variance is driven by lower-than-projected healthcare premiums & claims costs at ASES, and therefore lower federal matching funds flowing through the TSA. A portion of the YTD variance is permanent, but it is offset by associated federal fund receipts variance.
<b>Pension Outflows</b>

However, significant reversal of YTD variance is expected next week, due to payments issued during the week ended 1/26 that did not clear the bank until the week ended 2/2. The vendor to which the largest amount of payments were issued was PREPA, as throughout January there was a concerted effort amongst agencies to record and subsequently pay down open invoices from PREPA and PRASA in order to support their liquidity needs. This corresponds with increases in AP throughout the month of January, and subsequent decrease of total AP by \$194M from 1/19 to 1/26. AP decreased in the reported week due to the payments issued, and vendor disbursements cash outflow will reflect this in the subsequent week when payments clear.
